

2005 / 2006 SEASON

Miniature Auto Racing Club

TOTAL DOMINATION

Quicker than Quick Dan DeCosmo and the Faster than Fast Nuvolari race track hooked up for a lethal combination that totally destroyed all other competitors today. Dan's performance was so dominating that his closest competitor was 25 laps behind him in the Super Stock Main Event.

PRODUCTION CLASS (Two-minute heats)

When the Semi-Event was over, the top drivers were 1st seed, John Stezelecki, with 160 laps, 2nd seed, Dan DeCosmo with 156 laps, Rob Hayes with 155 laps, Joe Eastlack with 152 laps and John Pileggi with 151 laps. T.J. Mottola had 140 laps.

M.A.R.C. breaks its production class down to two classes, Pro and Amateur.

PRODUCTION AMATEUR MAIN EVENT (Five-minute heats)

There were six racers in this event, and no real surprises. Joe Eastlack would take first place, banging out 235 laps and a best time of 3.993 seconds on Lane 3 (orange). T.J. Mottola had a nice day, taking second with 229.9 laps and a best time of 3.950 seconds on Lane 3 (orange). Following T.J. was Kevin Jeglinski for third. Kevin was only four laps behind T.J. with 225.2 laps. Fourth place went to Bob Ferrara with 218.1 laps. Fifth was Gerry Cullan with 208.7 laps and in the final, sixth position Eric Chagnot with 203.6 laps. Congratulations, Joe!

PRODUCTION PRO MAIN EVENT (Five-minute heats)

There were five pro racers in this event. Dan DeCosmo would take the winner's podium racking up 238.8 laps. Rob Hayes led for much of the race, but blew an armature, and came in second with 236.6 laps. Rob also had the fastest lap time in this class with 3.850 seconds on Lane 4 (green). Seven laps behind Rob was John Pileggi with 229.2 laps. Stez couldn't capitalize on his top seed; finished fourth and had 228.4 laps. Tom Gray would take the final, and fifth spot with 207.7 laps.

SUPER STOCK Semi Groups A & B (Two-minute heats)

When both groups finished the semis, it looked like we were going to have a real close Main Event. It appeared that John Pileggi was going to be the driver to beat. John rang up 201 laps. John was followed by a very good performance from Dan DeCosmo with 199 laps. Rob Hayes had 182 laps and Stez 178 laps. Rounding out the top six would be Tom Gray with 168 laps.

SUPER STOCK MAIN EVENT (Five-minute heats)

No one ever expected what did happen, would happen. Second seed, Quicker than Quick, Dan DeCosmo would go on a tear and put on the performance of his life. The Faster than Fast Nuvolari was custom tailored for Dan's car and style of racing. He must have been waiting for a track like this to be built for him. Dan would blast out 495.3 laps in 30 minutes of racing. He would end up with the highest lap totals on each and every lane. He would now own the record for lap totals as follows: yellow – 82, blue – 86, orange – 81, green – 86, white – 79 and red – 81 laps. Spectacular job! Well done, Dan, congratulations.

Twenty-five laps behind Dan was the second place finisher, John Pileggi who managed to put up 470.3 laps. John also had the second best lap time of the day with 3.089 seconds on the orange lane. Behind John was third place finisher, Rob Hayes who put up 455.3 laps. Bob Ferrara continued to have a very good day by finishing fourth, putting up the fastest lap of the day with 3.022 seconds (I smell a rider – Ed.) on the orange lane. Bob scored 429.7 laps just four sections in front of Stez, who managed 429.3 laps for the fifth spot. Tom Gray would take the sixth and final position, deep in the cat chow, with 417.1 laps.
